

Peter-Ejim Ozioma

Python Developer

Python Developer with a strong interest in backend development and building practical software solutions. Knowledgeable in Python and backend development concepts, with a commitment to writing clean, maintainable code and continuously improving technical skills. Adaptable, detail-oriented, and eager to contribute to a development team. Seeking an entry-level or internship opportunity to apply technical skills and contribute to real-world projects.

Project Experience

Study Hub — Study Materials Management Platform

Python | FastAPI | SQLAlchemy | Relational Databases

- Developed and maintained backend components for web applications using Python, ensuring scalability and reliability.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement features.
- Optimized application performance, improved data security, and streamlined workflows.
- Automated repetitive internal processes, reducing manual workload and minimizing errors.
- Produced clean, well-documented, and testable code following industry best practices.

Status: Ongoing development and improvements

Technical Skills

- **Programming:** Python, SQL, JavaScript
- **Backend Development:** FastAPI, Flask, REST APIs, OOP
- **Databases:** PostgreSQL, SQLAlchemy
- **Frontend:** HTML, CSS, Bootstrap
- **Tools:** Git, Docker, VS Code
- **Professional Skills:** Teamwork, Adaptability
